

Alkami Recognized on CNBC's 2024 World's Top 250 Fintech Companies List

Most recently, Alkami has been certified by J.D. Power for providing "An Outstanding Mobile Banking Platform Experience" for clients.

PLANO, Texas, Aug. 27, 2024 /PRNewswire/ -- Alkami Technology, Inc. (Nasdaq: ALKT) ("Alkami"), a leading cloud-based [digital banking solutions](#) provider for financial institutions in the U.S., today announced its inclusion on the [2024 World's Top 250 Fintech Companies List](#), an annual list prepared by [CNBC](#) in partnership with [Statista](#). The list includes the top fintech companies across eight categories, of which Alkami was named in Banking Solutions.

To determine the top 250 firms, a team of analysts at Statista carried out in-depth research of 20,000 data points into relevant key performance indicators (KPIs) for more than 2,000 eligible companies between March and May 2024. The final list was based on analysis and weighting of KPIs spanning both general and category-specific criteria. Alkami's inclusion in the Banking Solutions category placed it among just 25 companies offering innovations and services to modernize banking processes, such as Banking-as-a-Service (BaaS), Open Banking, Digital Identity, and Know Your Customer (KYC) solutions.

"This recognition is an incredible honor for Alkami, and speaks to our commitment to providing an exemplary digital sales and service platform to regional and community financial institutions," said Alex Shootman, chief executive officer at Alkami. "We are proud to help these banks and credit unions compete against the digital capabilities of megabanks and better serve their communities."

In addition to this recognition, it was recently announced that Alkami is certified by J.D. Power for providing "An Outstanding Mobile Banking Platform Experience¹." This certification requires that technology providers' apps rank among the top performers in the most recent J.D. Power North America Mobile App Satisfaction IndexSM and outperform industry benchmarks across 146 best practices covering all aspects of mobile app development, design and operational functionality.
