

## Mascoma Bank Selects Alkami as its Digital Banking Platform Partner

April 12, 2022

*Full technology overhaul sets innovative course for other community banks to follow*

PLANO, Texas, April 12, 2022 /PRNewswire/ -- Alkami Technology, Inc. (Nasdaq: ALKT) ("Alkami"), a leading cloud-based [digital banking solutions](#) provider for banks and credit unions in the U.S., today announced that [Mascoma Bank](#) ("Mascoma") has selected Alkami's digital banking platform as part of a full technology stack overhaul with core banking technology firm [Thought Machine](#). This will not only drive future growth for Mascoma, but also serve as a model for other community banks to build upon.

"We are building an innovative ecosystem that will allow us to better serve our existing customer base, attract new customers and grow strategically into the future," said Clay Adams, president and chief executive officer of Mascoma Bank. "Our Chief Technology Officer, Raphael Reznick, challenged us to rethink how we use technology and the importance of building an embedded finance system. As a result, instead of replacing our existing core, we set out to completely revamp our tech stack to incorporate the most advanced systems. We chose to partner with Alkami because they offer the best balance of deep extensibility with robust 'out of the box' capabilities and configurations."

The Alkami platform will be integrated with Thought Machine's core banking platform, Vault, to provide a complete cloud-based banking platform that is capable of being easily configured and scaled. Mascoma will be able to get to market quickly and have the ability to customize based on the bank's unique needs using a modern API architecture and real-time data.

"Mascoma is a community bank to watch. They are undergoing a true digital transformation, and we are thrilled to be a part of it," said Alkami's chief executive officer, Alex Shootman. "Their digital-first mindset is helping them build a foundation that will allow them to innovate and adapt—fueling the future of community banking as a whole."

"Raphael Reznick along with our leadership team has a vision to build a digital platform that will put us in control of our destiny and serve as a roadmap for other community banks to follow. The new tech stack more than answers that call," added Samantha Pause, chief marketing and product officer at Mascoma. "I am particularly excited for Alkami's [data insights](#), which will allow us to provide tailored experiences to further empower our customers on their financial journeys."
